

PROFESSIONAL DEVELOPMENT WORKSHOPS FOR LIBRARIANS

Who We Are

STEMSpark designs fun, hands-on learning experiences for young children, families, and educators that spark curiosity, imagination and a love of STEM in the world.

STEMSpark designs and facilitates high quality professional development workshops to support the continuing growth and development of educators. Our workshops model best practices through interactive conversation and encourage participation through hands-on, minds-on learning.

Through our workshops, educators will:

- ✓ More confidently support STEM skill development in their library
- ✓ Actively incorporate authentic, fun STEM activities for a wide range of age groups
- ✓ Play and learn as we investigate STEM together
